

Nearshore & Supply Chain Solutions

WHY JII?

With over 40 years of expertise in supply chain management, procurement, global sourcing, and manufacturing, JUMA Industries Inc. leverages its extensive experience to offer innovative solutions to customers who may not have previously explored international sources. We bring a wealth of knowledge that opens doors to the myriad benefits international collaboration can bring to their operations, facilitating global business expansion. Our unwavering commitment is centered on precisely executing to our customers' needs and exceeding their expectations. Explore the world of possibilities with JUMA Industries Inc. as your trusted partner in global growth.

CUSTOM SOLUTIONS

We understand that each project is unique. That's why we offer custom solutions tailored to your specific requirements. Our team of experts is ready to collaborate with you to create products that perfectly fit your applications.

JUMA INDUSTRIES INC

AT JII we pride ourselves on being at the forefront of delivering unparalleled nearshore and supply chain solutions tailored to meet the diverse needs of our valued customers. With a relentless commitment to excellence, innovation, and client satisfaction, we stand as your trusted partner in navigating the ever-evolving landscape of global business.

JUMA INDUSTRIES INC.

Providing comprehensive fabrication services at our facilities located in Juarez, Chihuahua, Mexico, offer a complete range of capabilities. These include fabrication, machining, metal stamping, powder coating, galvanizing, and the advanced dicronite process.

At present, our facilities include two state-of-the-art aluminum extrusion presses (1,600 and 2,200 tons) located in CDMX, along with third press operating in the state of Querétaro (2,600 tons). These facilities are equipped with the latest technology available in the region. By utilizing primary billet material, we ensure the delivery of products that meet the highest standards of quality.

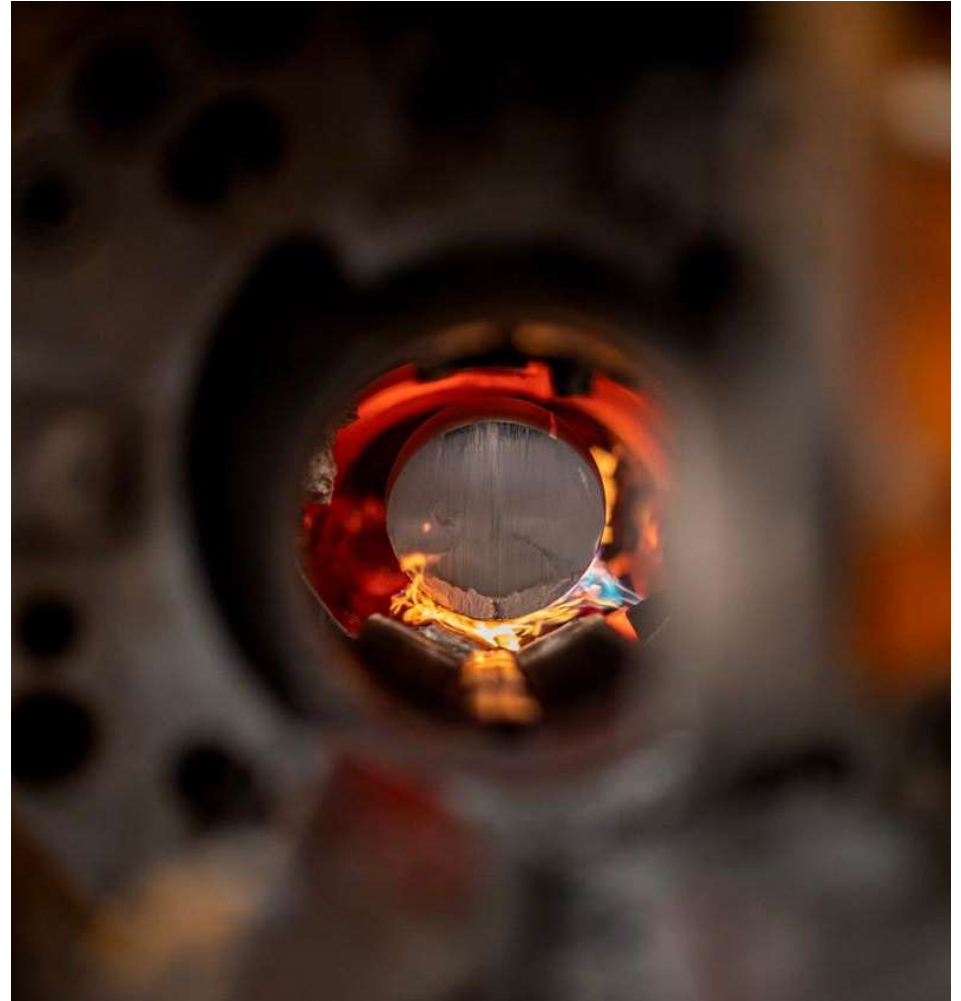

Our operations are ISO 9000 & ISO 14000 certified

ALUMINUM EXTRUSIONS

With over 35 years of experience in aluminum extrusion, our services encompass the entire process, starting from the design and manufacture of the die/mold, through the extrusion of profiles, to additional treatments such as anodizing, painting, and sublimation.

We also offer specialized processes including punching, perforation, precision cutting, and the production of special alloys. Our commitment extends to providing technical consultancy for each project.

ALUMINUM EXTRUSIONS - IZTAPALAPA PLANT #1

- Spanish Manufacturing Press
- 1600 Ton
- 6" Ingot Diameter
- 7" Outlet
- Cooling table 45 linear meters with cooling system
- Automated puller
- Double cradle press at die change
- Hydraulic circuits controlled by PLC
- Fully automated press
- 22 M / 72 ft long temper oven
- Powder Coat Line
- 9m /30 ft long anodizing tanks

ALUMINUM EXTRUSIONS IZTAPALAPA PLANT #2

- Korean Manufacturing Press
- 1800 ton
- 7" Ingot diameter
- 8" Outlet
- Cooling table 40 linear meters with cooling system
- Automated puller
- Double cradle press at die change
- PLC Controlled hydraulic circuits
- Fully automated press

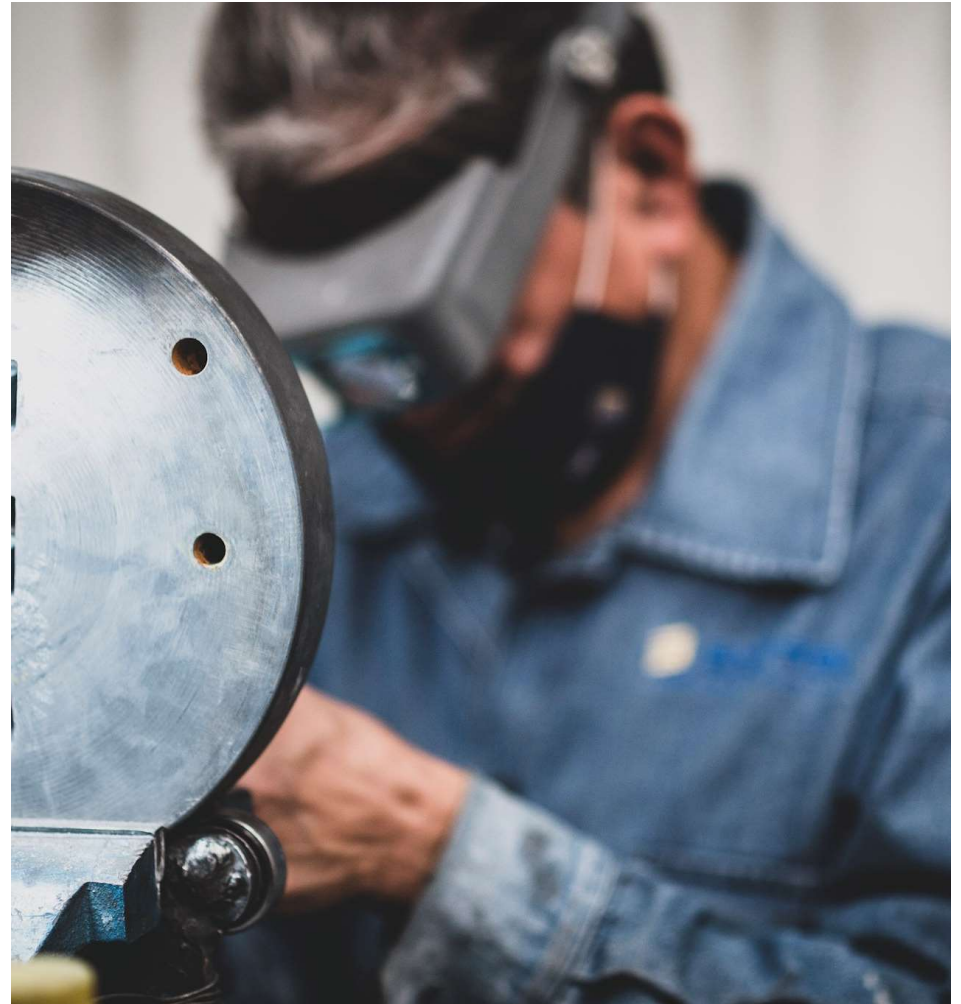

ALUMINUM EXTRUSIONS - CHICHIMEQUILLAS, QRO

- Italian Manufacturing Press
- 2200 Ton
- 8" Ingot diameter
- 11" Outlet
- Cooling table 70 linear meters with automated water-air system
- Double puller with saw cut on the fly
- Heat treatment furnace 24 meters long
- Double cradle press at die change
- Hydraulic circuits controlled by PLC
- Fully automated press, auxiliary equipment and stocker.
- 65 M / 213 Ft Long Temper Oven

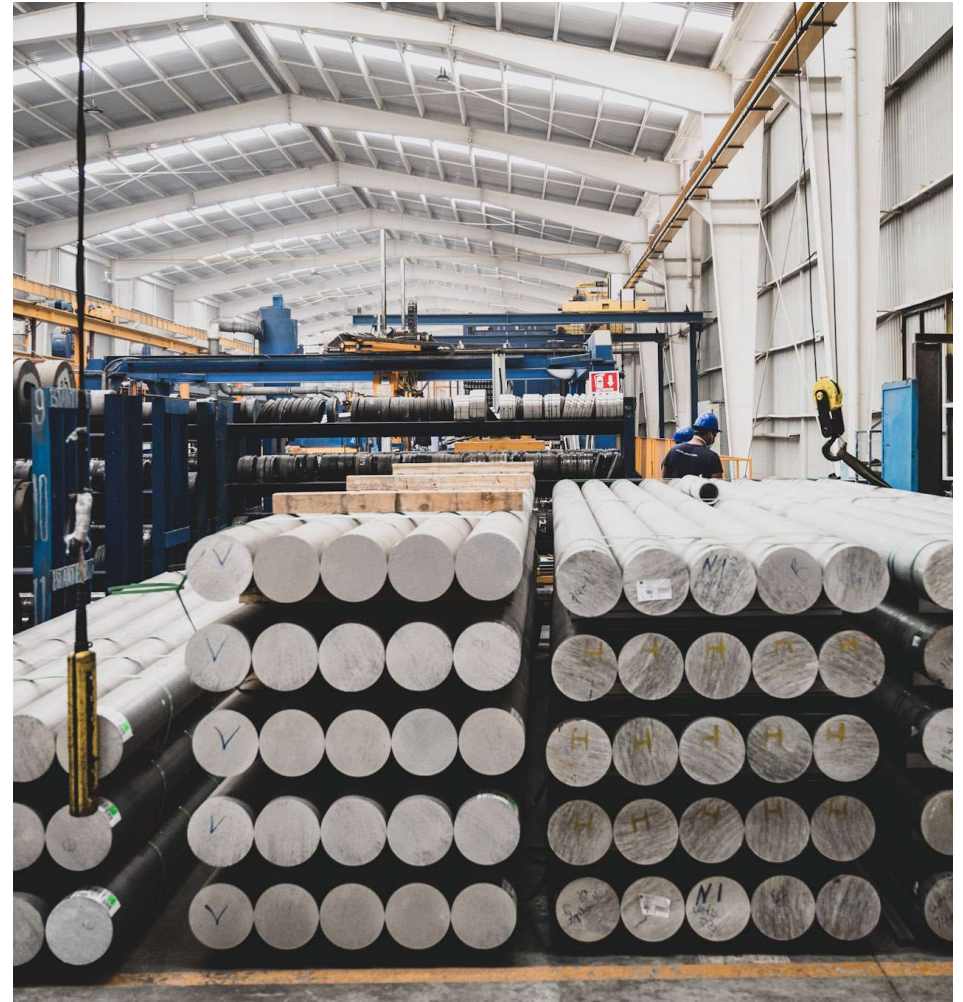

FABRICATION - CHIHIMEQUILLAS, QRO

- Cut to length
- Mitering
- Custom CNC Machining
- Drilling, Tapping, and Counter-Sinking

ALLOYS AND TEMPERING

- Standard alloys.
 - We have 6061, 6063, 6005, 6105, other alloys available upon request.
- We can treat your alloy to the desired tempering.
 - Some available tempers TF, T1, T52, T5, T6, T61.

ANODIZING - IZTAPALAPA PLANT #1

With over 50 years of experience anodizing.

Where precision meets excellence in anodizing solutions. Our facility is proud to introduce an anodizing process that stands above the rest, featuring tanks capable of accommodating lengths of up to 30 feet.

As a leading provider in the industry, we combine cutting-edge technology with unparalleled expertise to deliver superior anodizing results for your components.

Experience the perfect blend of efficiency, precision, and quality in every inch as we immerse your projects in a transformative anodizing experience.

SURFACE FINISHING - IZTAPALAPA PLANT #1

Our commitment to excellence is driven by years of experience, cutting-edge technology, the utilization of premium raw materials, and the adept handling of materials by our skilled engineers and technicians. This dedication ensures the delivery of a diverse spectrum of colors, meeting the exacting quality standards you demand.

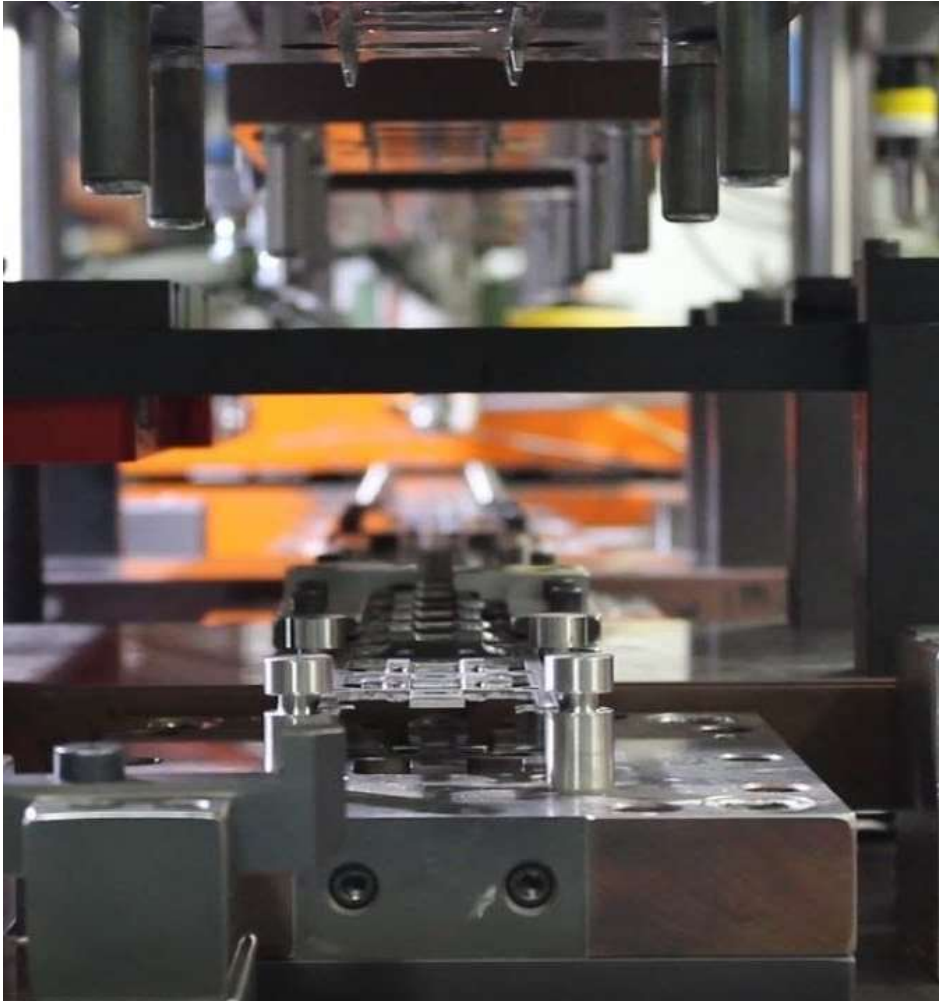

At our facilities, we operate a high-capacity powder coating production line capable of handling 90,000 linear meters monthly for white paint or 60,000 linear meters for colored paint. Furthermore, we house an anodizing plant with a robust monthly installed capacity of 90,000 linear meters, and a sublimation production line that imparts a wood appearance, boasting a monthly capacity to sublimate 30,000 linear meters.

Trust us to bring a seamless fusion of experience, technology, and premium materials to meet your specific color and quality requirements.

- Anodizing
 - Matte
 - Glossy
- Powder Coating
- Painting
- Sublimating

METAL STAMPING - JUAREZ

Whether it's metal or plastic components, we tailor our manufacturing processes precisely to meet the unique needs and specifications of each customer. Your satisfaction is our priority, and we take pride in consistently delivering top-notch products that align seamlessly with your requirements. Choose our machining services for reliability, precision, and cost-effectiveness in every project.

MACHINING - JUAREZ

Our machining shop is strategically outfitted with a range of cutting-edge machinery, enabling us to conduct various precision operations, including milling, lathing, CNC machining, EDM (Electrical Discharge Machining), heat treatment, and grinding. This comprehensive setup allows us to deliver high-quality machining services at a competitive price point.

Whether it's metal or plastic components, we tailor our manufacturing processes precisely to meet the unique needs and specifications of each customer. Your satisfaction is our priority, and we take pride in consistently delivering top-notch products that align seamlessly with your requirements. Choose our machining services for reliability, precision, and cost-effectiveness in every project.

GALVANIZING & PLATING- JUAREZ

Our galvanizing process lines are meticulously designed to guarantee the proper handling of all materials, resulting in a finish that boasts exceptional resistance to corrosion, reduced abrasion and wear, heightened resilience to temperature variations, and an enhanced metallic and cosmetic appearance.

Our galvanizing services encompass a variety of finishes, including zinc barrel, rack zinc, silver, black oxide, anodized, gold, nickel, electroless nickel, electropolish, tin, and copper. We cater to a broad spectrum of sizes, ranging from small hardware components to larger parts, ensuring the versatility and comprehensive coverage of our galvanizing capabilities.

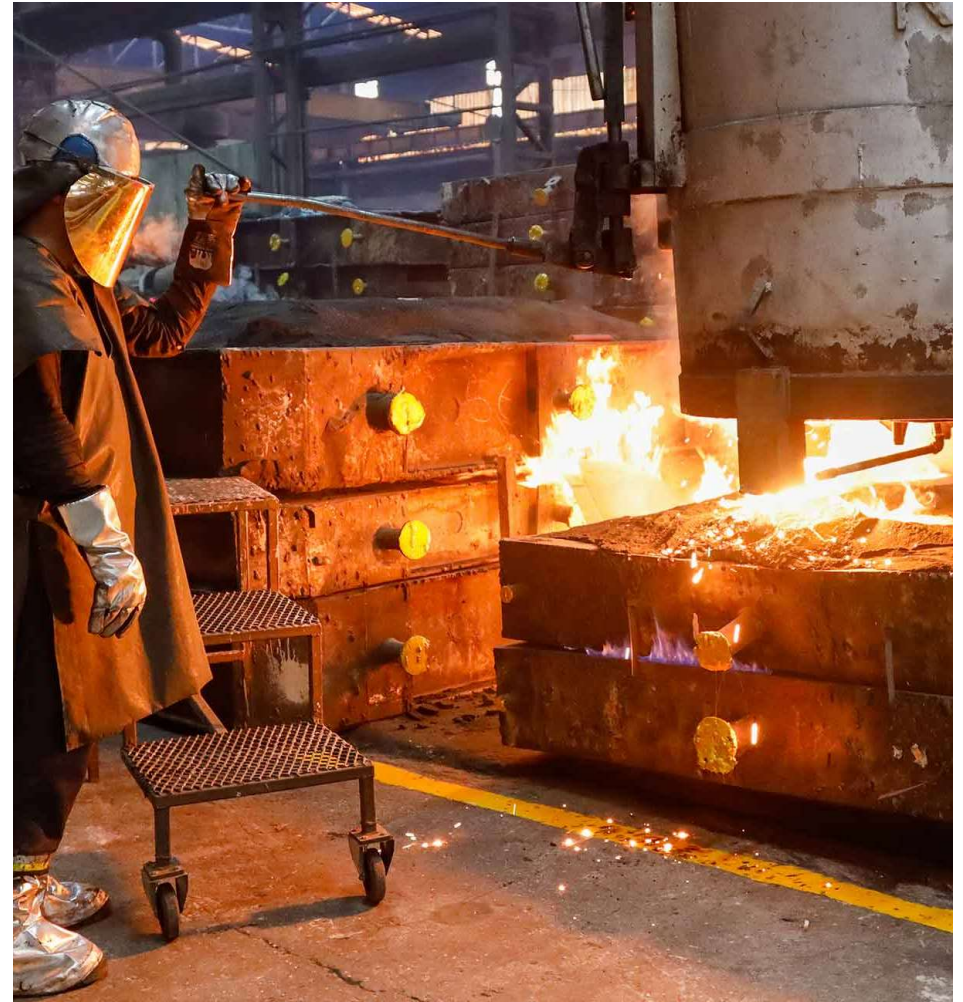

METAL FABRICATION - JUAREZ

We specialize in crafting diverse parts and structures tailored to meet our customers' specific needs. Our comprehensive capabilities encompass various metal fabrication processes, including MIG and TIG welding, Oxyfuel cutting, and expertise in working with both steel and aluminum.

DIE CASTING

Our casting solutions leverage technology to deliver precision and consistency. Whether you require intricate components or robust parts, our casting capabilities are tailored to meet the most demanding specifications.

JII ADVANTAGES

- You will pay “LME” and avoid Midwest premium high cost
- Trade Agreements. No aluminum extra tariffs. United States-Mexico-Canada Agreement. USMCA - A 21st century, high standard trade agreement: supporting mutually beneficial trade resulting in freer markets, fairer trade, and robust economic growth in North America
- Proximity and Logistics
- Diverse Manufacturing Capabilities
- Skilled labor force
